

# RESUME

## CONTACT

- name : [陈晨](#)
- email : [bluecc021@163.com](mailto:bluecc021@163.com)
- phone : [15921596064](tel:15921596064)

## PERSONAL

- 陈晨/male/1991
- master/ECNU&CS
- Location : ShangHai-PuDong
- Expected : Java engineer; Algorithm&DataMining

## EDUCATION

- 2013.09 – 2016.01 **ECNU**(East China Normal Univercity) Computer Science & Technology master
- 2009.09 – 2013.07 **ECUST**(East China Univercity of Science & Thecnology) Computer Science & Technology bachelor

## WORK EXPERIENCE

### Shanghai IfChange Co.,Ltd.

#### Java Algorithm Engineer

*Dec.2015 – Present*

1. Responsible for development of Resume Parser System
2. Responsible for refactoring the ResumeParser code from Python to Java
3. Responsible for building and optimization of recognize for key fields
4. Responsible for template generation for resumes using machine learning
5. Responsible for development of algorithm platform for visualization of the algorithms in company

### eBay Shanghai R & D Center

#### Java interns

*Aug.2014 – May.2015*

1. Optimization of human judge platform
2. Development of some features in human judge Platform

## 项目经历

### Resume Parser Refactoring

*Sep.2016 – present*

1. Design architecture and framework of Resume Parser, give the flow chart and UML for discussion
2. Set up a gearman service for external call
3. Participate in all module development
4. Use Spring IOC & AOP for simple, fast and flexible Resume Parser application

### Recognize for key fields in resume

*Dec.2015 – Dec.2016*

1. Optimize the recognition rules, dig and clean effective dictionary for recognition
2. Build Frequent Item Set to improve rules
3. Train a classifier for helping recognition

### Algorithm Platform

*May.2016 - Nov.2016*

1. Algorithm platform website was established based on the Spring MVC framework
2. The platform provide the visual results by algorithm, and the easy way to call the algorithm service
3. Statistical analysis daily search behavior, and provide visualization page of search behavior for manual analysis and review

~~~~~  
Thank you for your time reading my resume, looking forward to have the opportunity to work with you.
